Chief Complaint: Mouth Injury

Medical History: Hypertension
Current Medication: Ibuprofen
Medication Allergies:

Medic Note: Arrived on scene to find pt being propped up in a sitting position by family. She was not conscious, but was breathing. She was combative, unknown of due to etoh, // Pt had been drinking tonight and had a fall. They said that she hit her mouth on the steps and hit her teeth and lips. Pt had GCS of 14 (Eye = 4, Verbal = 4, Motor= 6). Pt was oriented to person/place/time. She had wounds to the inside and outside of her lower lip...

Synthetic Dialogue

[Dispatch] Dispatcher: East Unit 3, respond to a Fall, a young female with mouth injury.
[Introduction] EMT: Hi, I'm Jordan, a EMT with Rescue 3. Who called and what happened?
[Chief Complaint] Bystander: I did! My roommate fell down, hit her mouth real hard.
[Response Test] EMT: Can I take a look?
[Primary Exam] Partner: Clear airway, breathing at 16 breaths per minute
[Response Test] EMT: What's your name?
[Response Test] Patient: Macy Roberts...
[Response Test] EMT: What city are you in?
[Response Test] Patient: Richmond... I think?
[Response Test] EMT: Can you squeeze this for me between fingers?
[Response Test] Patient: (Struggles violently) Stop touching me! I'm fine, leave me alone!
[Interventions] EMT: She's combative, get restraints ready. We need 4-point hold now.
[Interventions] Partner: Placed soft restraints on wrists and ankles. Radial pulse 102 now.
[HPI] Bystander: She had vodka shots before. Said her head was spinning when she fell
[Pain Exam] EMT: Rate the pain, 0 to 10 scale?
[Pain Exam] Patient: (Mumbles through restraints) Two. It's just a cut.
[HPI] EMT: Any allergies? Meds you take?
[HPI] Patient: Nope. I'm taking ibuprofen...
[Protocol] EMT: apply injury-head protocol
[Take Vitals] EMT: Take another set of vitals
